**INTERESTING**

Karl Elsener began using stainless steel in 1923 in the production of his pocketknives. The internationally recognized mark of stainless steel, "Inox," was then added to the VICTORIA trademark. The two words would eventually become merged to create the now famous "Victorinox" trademark.

## FAITHFUL

The clicking noise which occurs when the blade is opened and engaged is an audible sign of the high spring pressure. Even after years of intensive use, this spring pressure will remain constant.

53946 STAINLESS STEEL

SWISSTOOL'S superior quality and performance are the standard against which all multi-tools can be measured.

### ONE-STEP ACCESS

Tools can be opened directly from the outside of the handle without opening the pliers.

### NO CLUMPING

Individual springs hold other tools in place.

### LOCK AND RELEASE

Tools lock into place when opened. To close, simply slide the release button and fold the tool away.
